Advanced Box Plot Worksheet (Exam Level - 15 Questions)

1. Draw a box plot and identify any outliers for: 2, 4, 5, 7, 9, 12, 15, 18, 30. **no outliers**
2. Construct a box plot for: 5, 6, 8, 12, 14, 18, 21, 25, 40 and comment on skewness. **balanced**
3. Draw a box plot for: 3, 7, 8, 10, 13, 15, 18, 22, 27, 35. Find IQR and outliers. **iqr=14 no outliers**
4. Create a box plot for: 10, 12, 15, 18, 21, 24, 27, 30, 60. Analyze spread. **more compact in q1**
5. Draw a box plot for: 1, 2, 4, 6, 8, 10, 12, 50. Identify extreme values. **1,50**
6. Construct a box plot for: 5, 9, 11, 13, 17, 19, 23, 29. Comment on symmetry. **asymetrical towards left**
7. Draw a box plot for: 6, 8, 10, 12, 14, 16, 18, 20, 22, 50. Find quartiles. **q1=7 q2=15 q3=21**
8. Create a box plot for: 3, 5, 7, 9, 11, 13, 15, 17, 19, 45. Detect outliers. **outlier=45**
9. Draw a box plot for: 4, 6, 9, 12, 15, 18, 21, 24, 100. Comment on skewness. **skewed to right**
10. Construct a box plot for: 2, 3, 5, 7, 11, 13, 17, 19, 23, 29. Analyze distribution. **more compact in q1**
11. Draw and compare box plot for: 8, 10, 12, 14, 16, 18, 20, 22, 60. **nothing to compare to**
12. Create a box plot for: 5, 7, 9, 11, 13, 15, 17, 19, 80. Identify outliers. **outlier=80**
13. Draw a box plot for: 2, 4, 6, 8, 10, 12, 14, 16, 90. Comment on spread. **more compact in q1 and q2**
14. Construct a box plot for: 1, 3, 5, 7, 9, 11, 13, 15, 70. Analyze skewness. **skewed to right**
15. Draw a box plot for: 10, 20, 30, 40, 50, 60, 70, 200. Identify outliers and IQR. **iqr=30 outlier=**
